## **Marcio Fonseca**

*President & CEO*

**GR Silver Mining Ltd.**

Mr. Fonseca has held senior roles with Phelps Dodge, Vale, and Echo Bay in Latin America. Mr. Fonseca also has over 25 years of exploration, project development, mining and financial industry experience and he was a former Division Director for Macquarie Bank – Metals and Energy Division, New York and Vancouver. In his 25+ years of experience, Mr. Fonseca has developed a successful track record in assessing, leading, and investing in natural resource opportunities in Latin America. His most recent success was the acquisition of SilverCrest Mines by First Majestic Silver Corp. (October 2015) for a purchase price of C\$155 million.

Marcio Fonseca is a P.Geo with a M.Sc. (Integrated with MBA Program) in Mineral Project Appraisal from Imperial College-UK. Marcio Fonseca has also completed a specialization in Economic Engineering from FDC Brazil.

### ***"Silver-Gold Advanced Development Projects – Consolidating one of Mexico's Most Prolific Mining Districts, "El Rosario" "***

GR Silver Mining Ltd. controls most of the mineralized zones in the eastern edge of Rosario Mining District in Sinaloa and concessions surrounding the historical Rosario mine. The company is set to significantly expand silver-gold resources in 2020. The recent Plomosas acquisition gives the company 100% ownership of a development stage project with +500 recent and historical drill holes defining zones for resource estimation and +30km in length of mineralized veins/structures. This extensive exploration database provides leverage for GR Silver to not only expand resources in 2020 but also to achieve discoveries at the Plomosas and San Marcial projects. These two projects combined have excellent infrastructure for exploration and future development, with all permits in place. GR Silver's team has decades of experience working in the region and track record of discovery and successful exit strategies to investors. GR Silver has acquired quality assets for a low cost and is positioned for rapid resource expansion in the Rosario District.
